Objects and Aims.

"The Industrial School Association of Brooklyn, Eastern District," was incorporated under the general act of 1848, for the incorporation of benevolent associations by filing in the office of the Clerk of Kings County, April 12, 1860, a certificate of incorporation signed by John A. Brady, George W. Edwards, James Hall, Isaac M. Holly, John Broach and Richard B. Hunt; who, together with Robert Duncan and George Ricard constituted the Board of Trustees for the first year.

The objects are stated in the certificate as follows:

"To cause the children of the School to be instructed in the Elementary branches of English Education, to see that they are taught habits of neatness and order, to be instructed in domestic duties, to provide food and clothing for the children, and to procure for them places of employment when they have arrived at a suitable age."

In 1870 an Act was passed by the legislature amending the charter and conferring additional powers on the Association. This Act and the Constitution of the Association and of the Board of Managers, may be found on the last pages of this Report.

The objects of the association and the requisites of membership are also stated in Articles II. and IX. of the Constitution.

Secretary's Report.

To the Association :

Our annual record for 1887 is herewith presented to the members and friends of the association. With all our increased facilities and provision for the accommodation of inmates, the work grows upon our hands. If we had double the room for children to-day, it could all be filled with cases of deserving, legitimate necessity. It may become a practical question for the association to consider and determine, whether we should confine ourselves to the work which we can do with our present conveniences and resources, declining all cases in excess of our present capacity, or go on enlarging our borders to meet increasing and growing needs, either by the acquisition of premises adjacent to the Home, or by the establishment of branches. The attempt to acquire adjacent property meets with this objection, that the owners, supposing that the property is more or less necessary for our purposes, advance their prices beyond a fair value. Would it not be feasible to carry on our operations as well, or even better, in detached branches, of convenient size, insuring more thorough oversight, more perfect instruction, and safer hygienic results, than in a populous establishment where the evils and dangers of contact among large numbers are forcibly felt.

Our Home school is already as large as it ought to be, having regard either to the good of the scholars or any reasonable demands upon the teacher. The capacity of the school-room is well filled, and it is impracticable, or at least inconvenient, to appropriate more of our Home building to school purposes than is now done. The instruction given in an Asylum like ours is necessarily quite elementary, without high-class grades, and can therefore be duplicated or multiplied in different localities or branches with entire convenience.

Among the subjects which have been more immediately under the charge of the Board of Trustees, we may note two gratifying facts, namely: firstly, the reduction of the debt contracted in our last building operations,

until it may be said to be nearly extinguished ; and, secondly, the accumulation from rents of the Lyon real estate of a fund sufficient to meet any claim by way of legacies, so that the property may be considered no longer encumbered by the claim. Within the coming year the rents will become available for the uses of the Home, or, if deemed more advantageous, the property might be sold and proceeds invested. Or, if the plan of the establishment of branches meets with favor, one or both of the Lyon houses might be fitted up for the uses of inmates and a school.

In these respects, as in all the operations of the Home and School, we believe our members and friends have reason to regard the closing year as one of success and prosperity equal to any preceding, for evidence of which we invite attention to the details embraced in the accompanying reports.

Respectfully submitted,

GEORGE H. FISHER,
Secretary.

Report of the Board of Managers.

At the close of our thirty-third year we have but to repeat as an association the grateful acknowledgments which have been called forth each successive year of our history, for the kindly interest as well as the generous supply of funds—so much needed to carry on our work—which has not changed, but is constantly growing.

Experience has given us wisdom in personal effort. We live in a stirring age—one in which no enterprise can succeed unless it is prosecuted with great energy and ceaseless activity.

The demand on time and thought requires constant diligence, and the object gained is a compensation which is more than equivalent for the efforts made.

Never has the "Home" been so full of children as during the past year. Notwithstanding the continuous outflow as well as inflow, the thought—where are we to put all these little ones—remains a prominent one.

Every corner of the building has been full, and it has been necessary to refuse to take some, who so much need the care given by the matron and care-takers.

Our "Home" is the only Protestant institution in this district, and for this reason our really spacious building is not large enough to accommodate all who apply.

Our Superintendent, Miss M. E. Whittlesey, has, as in years past, proved herself well fitted for the duties of her office. The following report gives but a faint idea of her work :

Children living in the "Home," October, 1887.....	165

The school is our busiest department, and the one more promising, perhaps, than any other, because of its extended influence. In reaching the hundreds of children brought for a longer or shorter time under our care, we touch the springs of so many lives which are to stretch on and on for ever, each one widening and multiplying its influence indefinitely ; and though the work is on many accounts more than ordinarily arduous, our teachers labor in hope that the seed sown will spring up to a grand fruitage.

The welfare of so large a family involves great care and labor, but all the requirements have been ably met by our competent matron, Miss Brown, and her assistants. Each one is faithful and ambitious in her own sphere, so that the atmosphere of the Home is one of uniform comfort and happiness.

The Executive Committee—composed of the officers and chairman of the various committees—meets at the Home each Friday to consider the wants of the institution and to receive applications.

The Visiting Committee have as ever been active, and in many instances have relieved much suffering.

Tuesdays are the visiting days for the public. A Manager is usually present to receive those who wish to acquaint themselves with the workings of the institution. Parents are permitted to visit their children once a month. It is on these occasions that we appreciate the size of our main hall, for here gather oftentimes forty or fifty parents with their children.

During the past year a large number of the older children have been indentured. Great care has been taken in choosing these homes. Many have been visited by members of the Board, who find that in most cases

the children are being taught, so that they will not only help themselves but others when they have become men and women. One of our old scholars was found happily married to a temperate and industrious mechanic.

The Distributing Committee have assigned to the "Home" children :

Garments.....	2,991
Pairs of shoes.....	853
" stockings.....	504

To Branch School :

Garments.....	238
Pairs of shoes.....	127

To outside poor:

Garments.....	56
Pairs of shoes	15

The Nursery Committee make frequent visits to the dormitories. They report favorable sanitary conditions, good ventilation. The seventeen babies in the Nursery were made very happy by the gift of a carpet for their so-called "parlor," and little rocking-chairs, from one who is ever thoughtful for these little ones. One of the babies has been adopted by a class of Sunday-school children, who take great pleasure in providing for all its wants.

The many applications received at our Day Nursery, show how much such a place was needed, where, by paying ten cents a day, mothers may leave their children, and know they are well cared for while they are at their daily labor.

OPEN AIR FUND.

The children of the Home enjoyed their annual trip to Coney Island, with all its accompanying pleasures.

The babies had their summer ride to and through the Park in Hamilton's large stage, and the older children went by detachments in the street cars to the Park or on little trips to gather wild flowers.

It would be impossible to tell how much these excursions benefitted and delighted the little ones.

We solicit contributions to our "Open Air Fund," to be used expressly for these summer excursions. Will not the children come to our help in this matter? We have a plan to suggest which will involve a little trouble

and self-denial, but which will richly repay those who will try it, when they think of the pleasure they will afford those less fortunate than themselves. The plan is this: Any little friend willing to contribute "*one penny a week*" to this fund, and who can find *nine* other little friends who will give the same amount, by applying to the Superintendent at the Home, will receive a book authorizing collection of funds for this purpose. At the end of the year, these ten little friends can thus raise the sum of \$5.20, to pay for happiness and sunshine for those little ones whose lives have been so dark and sad. Dear little friends, we know that, as in times past, you will help us with hearts and hands.

PHYSICIAN'S REPORT.

To the Lady Managers:

In our last report we congratulated you upon the freedom of the children from all manner of sickness. That it was phenomenal, that so many children should be congregated as ours were, and that there should be no sickness among them. We attributed it to the good sanitary condition of your building and the excellent judgment you exercised in their feeding, clothing, etc. But hardly was the report dry from the printers, when scarlet fever made its appearance. We had but four cases. These were promptly isolated, and stringent measures were adopted to keep the rooms and patients thoroughly disinfected. They all recovered. Before these cases had convalesced, measles in rather a severe form broke out among the children; in about a week's time we had thirty cases, and before it run its course fifteen more were added to them, making a total of forty-five. During convalescence, four cases of membranous croup developed, all of which proved fatal, although every effort was made to save their lives. Why membranous croup should be rather a common sequela of measles in institutions and not in private practice, is more than I can explain—but the fact remains. It is very seldom that the eruptive diseases break out in an institution like ours, with nearly two hundred children, with so little loss of life. But few of them suffered from the *sequelae* of this disease, namely, pneumonia, bronchitis, enlarged glands, weak eyes, etc., thereby showing the care given by those having them in charge. Later on a little boy in perfect health developed *Purpura Hemorrhagica*—a disease in which small hemorrhages occur all over the body, and in twenty-four hours was dead. During the summer we had some eight cases of inflammation of the lower bowels; they were very sick, but happily recovered. At present we have little or nothing on hand in the shape of sickness, and hope it may continue so.

Respectfully submitted,

WILLIAM A. DE LONG, M.D.

Through the kindness of Dr. Barrett, the children's teeth have been cared for.

We especially solicit partly-worn clothing.

We would like our friends to see the ingenuity with which some of our garments are put together. Sometimes a pair of pants will be made of several pieces taken from sample books. There may be a slight difference in the pattern of the cloth ; but when the garment is finished, a very critical eye would be required to notice the difference.

Everything is turned to good account in the " Home " for the use of the little ones there—and for the worthy outside poor who this year we have been able to assist more than ever before.

Under the direction of the care-taker, the children have been instructed in mending and making button-holes, and during the past year have mended 6981 garments ; darned 4859 pairs of stockings ; and made 1073 button-holes. They also receive daily instruction in sewing from members of the Sewing Committee and their friends, who are very grateful to those who so kindly assisted them in basting work.

REPORT OF SUNDAY-SCHOOL.

During the past year the Sunday-school has held 42 Sessions at the Home. Average number of children present 156 ; average number of officers and teachers 11. Total number of visitors 31. By committing to memory the Lord's Prayer, the Apostle's Creed, the Ten Commandments,

the names of books of Old and New Testament, and a collection of religious truths under the head of "Things to Remember," forty-four children have earned Bibles.

As heretofore, it has been the custom after each evening meal, for the children to read over in concert the lesson for the following Sunday. In this manner most of the lessons for the entire year have been memorized. Christmas and Easter were observed by special services.

The year that is past, I am justified in saying, has been a happy one—to us—both Teachers and Taught. The prevailing theme has been (though not expressed in *words*) "Something for the Master." The attentive listener; the thoughtful look; the considerate act are *some* of the Silent Messengers that speak to us a language whose echo eternity reveals. Session 2.30 P.M. Visit us. Help us.

About one hundred of the children are in regular attendance at the South Third Street Presbyterian Church, where one side of the gallery is filled by their bright and attentive faces. A special and appropriate little sermon is preached to them each Sunday morning.

The Branch School, located at 484 Humbolt Street, is in a prosperous condition. During the months of January, February and March, the children were given three hot meals, instead of two as heretofore. The cost of the extra meal, which was a substantial, well-cooked "stew," was \$26.64; and was defrayed by the managers and outside contributions.

We consider ourselves fortunate in securing the services of Mrs. Spencer, soon after the death of Mrs. McClure, the foundress and first teacher of the School.

Average attendance, 70; number of meals furnished, 8,908; number of garments, 504.

Thanksgiving is a happy day for the Home children, as well as the 300 children from the Branch and Truant Schools, who come to the Home for

their annual dinner. For several years we have distributed bags, and find it a very successful way, and certainly approved of by our friends, who so generously fill them.

Mr. and Mrs. J. W. Smith made Christmas a "merrie" one with their beautiful tree and gifts.

The Trustees and Managers provided the usual well-filled Christmas stocking, and on the Fourth of July strawberries and torpedoes in abundance.

We have thus endeavored, as concisely as possible, to gather up the records of the various committees.

It will be seen that our work is large, requiring the time and strength and concentrated thought of many workers, and large material resources to carry it on.

When it is remembered that, apart from occasional bequests, we trust to the supplies that come to us mainly in little streams from those who are in sympathy with our cause, it will be apparent that the Lord cares for us. The work is His. We are grateful for His mercies, not the least of which is the privilege of being in the work, and humbly submitting to his will, and placing ourselves anew at his disposal, we gladly go on

"To work another day."

Respectfully submitted,

MARY E. POST,

Recording Secretary, *pro tem.*

AN ACT

TO AMEND THE CHARTER OF THE INDUSTRIAL SCHOOL
ASSOCIATION OF BROOKLYN, E. D.

PASSED APRIL 27TH, 1870.

The People of the State of New York, represented in Senate and Assembly, do enact as follows:

SECTION 1. The Industrial School Association of Brooklyn, Eastern District, are hereby authorized and empowered to purchase and hold real estate sufficient for the actual occupation and necessary uses of the corporation, and to receive the same by gift or devise, in the same manner and subject to the same restrictions as provided in the general law for the incorporating of benevolent and charitable associations, under which said association is organized, and to hold and convey such real estate; and shall be deemed to be possessed of the rights and be subject to the liabilities of corporations, according to the provisions of title third, chapter eighteenth, part first, of the revised statutes, so far as the same may be applicable; provided, however, that the amount of real estate to be held by such association at any one time shall not exceed one hundred thousand dollars in value, and the amount of personal property to be held shall not exceed seventy-five thousand dollars in value.

§2. The real and personal property of said association so held by it shall be exempt from taxation to the amount held by it as before mentioned in this act.

§3. There shall be a board of female managers of the said association, to conduct the business of the association in a manner prescribed by the constitution and by-laws of the aforesaid association, as the same now exists, or as the same shall be adopted or altered by the said association, but the same shall be in accordance with the laws of this State, and such managers shall be elected or appointed annually, or otherwise, as is or may be prescribed by such constitution and by-laws.

§4. It shall be one of the objects of such association to provide a temporary home and relief for adult destitute, unprotected, and friendless females.

§5. The board of managers shall have power to appoint matrons, and such other assistance as they may deem necessary in conducting the domestic and internal concerns of their house or houses of industry and home for the friendless; to make any by-laws and regulations for the government of their own proceedings and those of the persons so appointed, and of the inmates of their houses; to govern the children under their care and prescribe their course of instruction and management, to the same extent and with the same rights as exist in the case of natural guardians.

§6. In all cases where a child shall have been surrendered by its natural or other legal guardian to the care and management of the said association, by any instrument or declaration in writing, it shall be lawful for the board of managers, at their discretion to place such child, for adoption or at service, in some suitable employment, and with some proper person or persons, conformable to the laws of this State in regard to the binding out of indigent children; provided, that in all such cases the terms of the indenture shall be approved by the Mayor of the city of Brooklyn, or by the Surrogate of Kings County, which approval shall be signified on such indenture by the signature of such Mayor or Surrogate; but in every such case the requisite provision shall be inserted in the indenture, or contract of binding, to secure the child so bound such treatment, education, or instruction as shall be suitable and useful to its situation and circumstances in life.

§7. In case of the death or legal incapacity of a father, or of his imprisonment for crime, or of his abandoning and neglecting to provide for his family, the mother shall be deemed the legal guardian of her children for the purpose of making such surrender as aforesaid. And if in any such case the mother be also dead, or legally incapable of acting, or imprisoned for crime, or shall have abandoned or neglected to provide for her child or children, the Mayor of the city of Brooklyn or Surrogate of the County of Kings, shall be, by virtue of his office, the legal guardian for the like purpose; and so, in all cases where it cannot by diligent inquiry be ascertained that there is within the State any parent or other person legally authorized to act in the premises, the said Mayor and Surrogate shall be *ex officio* such guardian for the same purpose; and in either case, whether such surrender shall be made by the mother, or by the Mayor or Surrogate, and whether before or after admission into said Home, it shall be deemed a legal surrender for the purposes and within the true intent and meaning of the sixth section of this act; but no surrender by a mother, as provided by this section, shall be valid without the consent of the Mayor or Surrogate aforesaid.

§8. If any party to whom the said association shall have entrusted a child shall be guilty of any cruelty, misusage, refusal or neglect to furnish necessary provisions or clothing, or any other violation of the terms of the indenture or contract, towards any such child so indentured, such child may make complaint thereof to the board of managers of said association, or to any justice of the peace of the county in which such child is so indentured, or to the Mayor, Recorder, or Alderman of any city in which

such child is bound to service, or to any such officer who shall summon the parties before him and examine into, hear and determine the said complaint, and if upon such examination the said complaint shall appear well founded, such officer shall by certificate under his hand discharge such child from his or her obligation of service, and restore him or her to the charge and management of said association, in the same manner and with like powers as before the indenture of said child.

§9. Where children are indentured, the guardian may be required after said children have attained the age of twelve years, to place annually in the treasury of said association the sum of ten dollars, which shall be the legal property of such children. If a girl, the aggregate, making sixty dollars, shall be paid to her when she has attained the age of eighteen years; and if a boy, the annual payment, making ninety dollars shall be paid to him when twenty-one years of age; these respective sums shall be duly credited to said children upon the books of the association and receipts of the respective payment placed in the hands of the guardian for safe keeping.

§10. The board of managers of the said association shall be the guardian of every child indentured by virtue and in pursuance of the provisions of this act. They shall take care that the terms of the contract be faithfully fulfilled, and that such ward be properly treated; and it is hereby made their special duty to inquire into the treatment of every such child, and redress any grievance in manner prescribed by law; and it shall be the duty of the guardian to whom any such child shall be indentured, and he shall, by the terms of the indenture, be required, as often as once in each year, to report to the said board of managers the conduct and behavior of the said apprentice, and anything of special interest pertaining to his or her welfare.

§11. The Legislature may at any time alter, amend, or repeal this act,

§12. This act shall take effect immediately.
